Accommodations

Hotel or apartment in Girona. Check availability and season.

During two days you can visit the Costa Brava and the Girona province inner. From Girona city to Tossa de Mar. Along this trip you will enjoy one of most important natural areas of interest in the Girona province. A day of sea and mountains, with the sea as permanent backdrop to cool off. In the second stage, the Les Guilleries massif, with its natural water fountains and the waters of the Susqueda reservoir, which will make this day a refreshing route. A green backdrop of its forests and the natural blue waters that flow in the county of La Selva.

STAGE 1.

126 km > 1442 m + vertical drop

The route begins in Girona towards Les Gavarres, an area of natural interest very close to the Costa Brava. You will visit maritime towns by road with one of the best views of the tour until you reach the coastal town of Tossa de Mar. You will end your trip feeling of having enjoyed unique places between sea and mountains.

STAGE 2.

114 km > 1687m + vertical drop

We will discover the Les Guilleries massif climbing to Sant Hilari Sacalm town and follow down to Osor. An itinerary through the nature, with natural springs from the mountains of the wildest Pre-coastal Range and with spectacular panoramic views of the Susqueda reservoir. Today it's time to pedal through the wettest territory in the Mediterranean.
